

## LAVERY'S MUSIC POLICY FOR PRIVATE BOOKINGS

At Lavery's we try and do things a little differently, and this includes our music and entertainment policy. The DJs at our club nights, live bookings and nightly entertainment are all part of our resident team. When you book a private function at Lavery's and you decide you would like a DJ to provide the entertainment, we will assign one of our residents to your event.

Our music policy throughout Lavery's emphasises alternative, non-commercial styles – indie, rock, house, disco, hip-hop, funk, soul, reggae and more. This also extends to private functions – we ask our DJs to express themselves, have fun and work within those parameters, whatever the event. Please bear this in mind when booking an event with us – you won't hear chart music or cheese, and our DJs are asked not to play this kind of music, even if it is a request. However, if you do have any preferred genres or artists, please feel free to mention this when booking and we can tailor the music accordingly.

Our DJs are happy to take requests, and they will always try to reach a compromise with you if they are unable to play the track you want – but their decision is final.

Lavery's Entertainment Management Team.
